

*Be the best you can be, every day*

## Reception - Spring 2

### I can recall number bonds to 10

Children should automatically recall (without reference to rhymes, counting or other aids) number bonds to 10.

#### Practical Activities

- Have a set of number cards from 1-9, take turns to choose a card and challenge the other person to find the other number to make 10. Repeat this challenge to build numbers up to 10.
- With a partner, choose a number 1 to 10. One person does a number of jumps, the other person then jumps to make the total 10. This could be done with any action e.g. claps, taps, clicks etc
- Choose a number 1-10 and see how many ways you can build the number with Lego bricks
- Watch Numberblocks episode 'What makes 10?' Available at <https://www.youtube.com/watch?v=Gt88JrSZIPA>
