

Using EducationCity's Home Access

Dear Parent/Guardian

You may be aware that our school uses EducationCity, an award-winning online resource that is loved by both teachers and students.

We currently have a trial for May from Education City for students to be able to login at home to use these great resources. Your child will already have a login (with the exception of Foundation stage children at this time), and therefore should be able to do so by going to:

<http://www.educationcity.com/> and clicking on the orange login button at the top right of the page where they can then enter their username and password in the appropriate spaces.

You may find that their teacher has already set up some activities for the children to try. Or they can choose from a wide range of activities for their year group in the menus.

By allowing EducationCity to be used at home, your child will be able to access fun, engaging activities that will help reinforce their in-school learning and allow you as a parent to support learning at home.

Login details will allow your child to access EducationCity from any device that has internet access (with the exception of eReaders). Should you not have internet access at home, your child will be able to use the facilities at school or the local library.

Should you have any questions regarding EducationCity, please do not hesitate to ask.

Yours faithfully,

Miss R Winslade

Computing Curriculum Coordinator
