

Introducing the new

Vividtouch Screens for Education

This term we have been introducing the new Vividtouch Screens that have been supplied and installed by Sweethaven Computers in Reigate. These have been funded and bought by our fabulous FONDS. At the moment FONDS have funded two screens - one in Beetles classroom at Leigh (Year 2) and one in the Computer Suite at Brockham. We are also awaiting the next screen for Year 2 at Brockham. We would not be able to purchase such amazing resources for our school without the help from parent contributions coming from the exciting range of fundraising activities such as the quiz night, movie nights and the summer ball.

Sweethaven were able to arrange a great demonstration with the Vividtouch team for all of the teachers to attend. This was a very valuable session to enable them to have the knowledge in order to plan and teach engaging lessons in the future. We hope that with the continued support from Parents and brilliant organisation FONDS there may be the possibility of more screens in the future.
