TOGETHER

North Downs Primary School aims to:

- Provide a secure and happy environment that supports the development of the whole child, academically, socially, physically, emotionally and morally.
- Promote respect and care for the environment and for oneself and others irrespective of faith, sexual orientation, ethnicity, gender and ability or disability.
- Provide a broad, balanced, relevant and stimulating curriculum offering equality of experience and opportunity and making the maximum use of resources at all three village sites.
- Set high expectations and promote excellence in order to create independent, enthusiastic and motivated learners, so that each child achieves more than they thought possible in all areas of learning and development.
- Strengthen and build on the good partnership between pupils, parents, staff, governors and the community and have pride in ourselves and the school.
- Maintain strong links within and between each village community in order for the school to continue to be well respected within the wider community.
- Develop confident young people who are willing to take well considered risks and rise to challenges whilst taking responsibility for their own choices and actions, in preparation for playing an active role in a diverse and ever changing world.
