

Happy New Year! Thank you for all your lovely Christmas wishes and gifts.

Over the last two weeks we have been;

- Learning about Beegu; predicting and answering questions about who, where and how Beegu came to land on Earth.
- Walking around the local area in search of Beegu and looking at significant features of our local area.
- Continuing addition and subtraction calculations, related facts and comparing number sentences.
- Identifying and naming different materials.
- Using Google Earth and Google Maps to explore the wider world and where we live.
- Making observational drawings of school building and looking at the work of the artist Lowry.

If you are happy to do so, please may we have a picture of your child's house. This is so we can create a map of the local area to include where we live in relationship to significant buildings that we may have seen on our walk.

Also, any small boxes suitable for junk modelling of houses would be greatly appreciated.

### REMINDER

We have the Sports for Champions day coming up on Tuesday 28th January where professional long jump athlete Ezekiel Ewulo will join us. The deadline for bringing in the sponsorship forms and money to support this event is **Tuesday 21<sup>st</sup> January**. We would appreciate your support with this.
