

Friday 14th February

Computing skills & Homework

Over the last term, the children have begun to improve their touch typing skills by using two different computer programs. Both of these can be used at home - see links below. We are now putting these skills into practice by typing letters into Word documents. Over half term, there is no official homework as the children still have a week to complete their maths challenge.

Any reading, tables and spelling practice would be a bonus.

Brighton Trip

On Tuesday 10th March we will be taking Year 3 to Brighton to the Sea Life Centre and to investigate the beach. This is linked to our geography 'The South East', comparing Brockham and Dorking to the coast. We will also be looking at stories with a coastal theme. The trip is now set up for online payment.

Safer Internet Day

On Tuesday it was Safer Internet Day across the country. Everyone attended a special assembly to talk about our 'Digital Identity' and how we can stay safe online. In the afternoon, Year 3 used a drama activity to understand avatars a little more. The BBC have a great information section, with videos on their website: <https://www.bbc.com/ownit>

Together for a better internet

Learning Outside the Classroom

We have had great fun learning outside the classroom this week - linked to various areas of the curriculum. Here you can see the children creating pictograms from materials found outside.

Next term...

- Stories with familiar settings
- Using Microsoft Word and creating graphs
- Statistics, length and perimeter
- Sketching techniques and colour mixing
- Spellings: homophones and near homophones
- UV light - keeping safe in the sun
- Hockey
- Gymnastics
- The South East of England
