

## Autobiography Plan

Make notes under these headings:

Date and where I was born:

Where I spent my early years (before I started school):

Other people and animals in my family:

Where I have lived (include details of moves):

Schools I have attended:

Hobbies and pastimes:

Other information of note (achievements, interesting facts)

Now create a timeline of events to help you sequence your autobiography.

Finally, write your autobiography. Remember to use paragraphs and include the features of this writing type. You need to include detail, but remember that this is non-fiction writing, so choose the vocabulary carefully.
