3D Shape Properties - Top Trumps

Top Trumps Rules:

1. Deal half the cards each.

2. Place cards face down – take the top card only.

3. Select a Property – say its number – and say highest or lowest wins.
   E.g. Cube: Faces – 6 – Lowest Wins!

4. Partner has to say number of same property on their card
   – Whoever wins takes both cards.

5. If you draw, place both cards down in a pile. Keep playing until someone wins all the cards in the pile

6. Winner is person with most cards at the end.
