

Year 4 Learning Letter

Friday 11th December 2020

Edition No. 7

It's been a very busy term!

We would like to take this opportunity to say a big thank you to all of the children and parents for your hard work, cooperation and dedication in a first term that has been anything but normal. From different class room layouts, bubbles and Teams for home work, we have been amazed at the response and willingness to have a go. So well done everyone!

What are we up to?

English - Poetry Anthologies almost completed and will be heading home to 'wow' you soon.

In maths we are moving on to multiplying and dividing larger numbers, beginning with 3 digit by 1 digit.

In science we are undertaking a practical investigation into the effects that various liquids have on an enamel-like surface.

Multiplication Check

Next year, we will be taking part in the mixed multiplication check for Year 4 students. This consists of 25 questions on a computer program. They are allocated 6 seconds per question. For further information please click on the link below. As normal, we will be continuing our drive and enthusiasm with our tables testing and practice in school.

...What's this? Keep checking school emails. We had GREAT FUN doing this.

spellzone
The online English spelling resource

Homophones and near homophones.
This is the last homework before Christmas.

<https://www.spellzone.com/>

This is now a weekly homework.

Home Learning:

This will be the last one before Christmas on TEAMS. However, get ready for our new Y4 Times Tables battle coming on Rockstars in January.
