

Year 6 Learning Letter

Friday, 11th December 2020

Edition No. 7

Merry Christmas

We would like to take this opportunity to thank you for all your help and support during what has been a very unusual and challenging year for us all. Here's hoping that 2021 will allow us to slowly return to a more normal, more relaxed way of life.

This is what we will be aiming to cover during the final week of term:

History - concluding our work on the Battle of Britain;

English - continuing our work on informal letter writing, as the children assume the role of a particular evacuee and write a letter home describing their experiences;

Science - finding out about Isaac Newton's Theory of Light and how a ray of light can be altered when it passes through a prism;

Maths - finishing our geometry work, ready to move on to decimals and percentages in the spring term;

RE - exploring Advent traditions and how Christmas is celebrated around the world.

After working hard during assessment week, the children had a lot of fun filming their Christmas videos - here are some clues as to what you might expect!
