

Year R Learning Letter

Friday May 21st 2021

Edition No. 12

This half term has been filled with wonderful moments where your children have shown us how much progress they have made since starting school - we are really looking forward to more of the same after the half term break.

Next week, we will be taking a local walk to explore our village environment. Please remember to send your child in with a coat as who knows what the weather will bring!

As this is our last learning letter for the half term, we hope you have a lovely holiday and thank you for your ongoing support.

In the last two weeks we have...

- Looked at farms and their uses.
- Explored non-fiction books to find information.
- Written riddles about farm animals and equipment.
- Solved problems using numbers to 20, adding, subtracting, halving and doubling.
- Revised phase 3 sounds and tricky words.

Over the next 2 weeks we will...

- Make up stories using small world resources.
- Look at simple food chains.
- Used a simple animation program to show something moving on a farm or growing.
- Practise our rhyming skills.
- Continue with phase 3 sounds and tricky words.
- Start our new topic 'Seaside' - after half term.

Congratulations!

Thank you to everyone who entered the FONDS competition to design a class logo for Owls and Robins; it was a very difficult decision to choose just one winner for each class. The winning entries came from Lula (Owls) and Archie (Robins) - well done to both of you!

Wanted

- Recycling materials for modelling.
- Any old postcards for our topic on seaside next half term.
- Any outgrown school uniform or wellies to be used as spares.
- Ingredients to make play dough for our dough disco - flour, salt, vegetable oil, cream of tartar.

Reminders

- Sun cream should be applied before your child arrives at school and they should bring a sun hat, water bottle and waterproof coat with them every day.
