

As we start this final half term, Year 3 are continuing to enjoy their learning in all subjects. We are working hard on learning to tell the time to the nearest minute, understanding am and pm and working out durations of time. Any help you could give us by just asking questions about these areas of time would really help children to consolidate the good work they have already done.

Now that the weather has finally improved, we have been enjoying using the outside spaces more and more. The 30 Days Wild activities we have been doing are great fun (more of this below).

On the 20th June we are welcoming 'Stone Age Man' for a day of Mesolithic activities and dressing up, giving the children an chance to immerse themselves into stone age life.

As mentioned above, we are taking part in the Wildlife Trusts' 30 Days Wild this month. As part of this, you have the opportunity to try out some activities at home (take a look at the 30 Days Wild Website for some simple ideas) and upload a photo of the things you have done at <https://arcg.is/ajOir> . If enough people do this the school may even win a grant towards expanding our outdoor learning even further!

We are Learning...

Maths - We are learning about durations of time

English - We will be starting our unit on Stone Age adventure stories

History - We will be finishing our unit on Ancient Britain

French - We continue to learn the names of fruits and vegetables. We will also be learning about ancient Britain, but in French!

PE - Athletics & Swimming

Computing - We are learning about how digital devices and networks work

Science - We are learning about animals, including humans
