

# Year 4 Learning Letter

Friday 7<sup>th</sup> July 2023

Edition No14

## Surrey Wildlife trust

Year 4 have been so lucky this year. We had the privilege of working with SWT all year. Over that time the children have transformed the Eco field which includes a bug hotel, a bee bank, a no mow zone and a wonderful wildflower garden. The end of the year also saw 8 children represent the school at Nower Woods alongside 11 other schools. Their presentation earned the school £75.00!

## Our last learning letter of the year!

We would like to say thank you to all of you for your support and encouragement throughout the school year. The children have been on a wonderful journey including High Ashurst; Forest school; Surrey Wildlife Trust; Christmas carols and all of the amazing learning that has taken place. Well done to all of the fabulous children and all of their hard work.

## Homework

A reflection and highlights of your time in Year 4.  
Due in: 14/7/23

## Next week...

We will be continuing to up-level our narrative writing to make us ready and good to go in Y5. We have been using lots of films to inspire plus additional texts.

*Maths will see us consolidate our understanding of number by working on a variety of word problems and puzzles.*

In science we will be continuing with electricity - we promise...no explosions!

*PSHE will finish our 'Changing Me' unit.*

Don't forget to continue using the above, especially in the holiday time to keep your mind fresh and ready for Y5.
